The screenshot displays the Odoo Apps interface. At the top, there are navigation links: Apps, Apps, Update Apps List, Apply Scheduled Upgrades, and Import Module. On the right, there are icons for notifications, a clock, and a user profile labeled 'Doe John'. Below the navigation bar, there is a search bar with the text 'Apps' and a filter set to 'Module'. The search results show three items:

- ONLYOFFICE**
onlyoffice_odoo
[Learn More](#)
- ONLYOFFICE Documents**
onlyoffice_odoo_documents
[Learn More](#)
- ONLYOFFICE Templates**
onlyoffice_odoo_templates

HEALTHY EATING

Lowest Calorie Foods

It's quite obvious, that to lose weight or to keep it low you should eat in moderation and choose low calorie foods. But what foods are really low in calories? To help you get an idea of what you could use to vary your selection of low calorie foods and eat generally more healthy products we compiled the following chart.

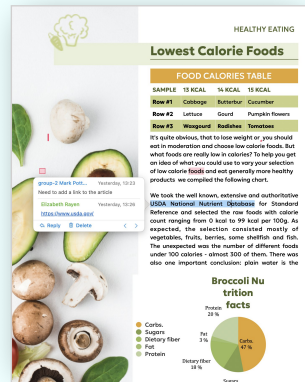

FOOD CALORIES TABLE			
SAMPLE	13 KCAL	14 KCAL	15 KCAL
Row #1	Cabbage	Butterbur	Cucumber
Row #2	Lettuce	Gourd	Pumpkin flowers
Row #3	Waxgourd	Radishes	Tomatoes

We took the well known, extensive and authoritative USDA National Nutrient Database for Standard Reference and selected the raw foods with calorie count ranging from 0 kcal to 99 kcal per 100g. As expected, the selection consisted mostly of vegetables, fruits, berries, some shellfish and fish. The unexpected was the number of different foods under 100 calories - almost 300 of them. There was also one important conclusion: plain water is the only truly zero calorie food. Everything else contains some energy, though it might be very low, it still is more than zero.

The screenshot displays the ONLYOFFICE web interface. At the top, a navigation bar includes the ONLYOFFICE logo and a menu with options like 'Settings', 'Ask AI', 'Summarization', and 'Translation'. Below this, a section titled 'What is an AI helper?' explains that an AI helper is a software program powered by artificial intelligence to assist with tasks. It lists several AI models: DeepSeek, Groq, OpenAI, Gemini, Together AI, Mistral, and Anthropic. A text box on the left describes the ChatGPT plugin, stating it allows users to generate images based on selected text and provides a seamless experience for visual content creation. To the right of this text is a large, vibrant, abstract image with swirling colors of red, orange, yellow, and blue. Below the text box, a 'ChatGPT' chat window is open, showing a prompt: 'The best open source and collaborative document editor'. The chat window displays a response from the AI, which lists several open-source and collaborative document editors, including Google Docs and OnlyOffice. At the bottom of the chat window, it shows 'Tokens in the request about: 0' and 'Total tokens are used in last request: 165'.
